

Kriti Gupta

Product Designer · UI/UX Designer · Product Design & Frontend

kritisambhariya@gmail.com · 7976562422 · Jaipur, India · kritigupta.in · [LinkedIn](#)

EXPERIENCE

Wisflux Techlabs — Product Designer Jan 2023–Present

Progressed from UI/UX Designer to Product Designer

- Progressed from UI/UX Designer to Product Designer, expanding ownership across product discovery, UX research, requirements, information architecture, interaction design, visual design, prototyping, usability, and product delivery.
- Design end-to-end digital product experiences across enterprise, HRM, project management, education, and operational software.
- Translate client and stakeholder requirements into user flows, wireframes, prototypes, high-fidelity UI, design systems, documentation, and developer-ready handoffs.
- Collaborate with clients, product managers, developers, QA, and internal design teams across discovery, design reviews, implementation, testing, and iteration.
- Contribute to product strategy, UX decisions, requirement documentation, design planning, stakeholder reviews, and design-to-development workflows.
- Review implemented builds for UI quality and functional consistency and iterate designs based on product feedback and testing.
- Create marketing creatives, social media content, product communication assets, and go-to-market (GTM) design materials.

Pie-Gamers, Jaipur — Graphic Designer & UI/UX Designer Jun 2022–Aug 2022

- Designed and helped build the concept and user experience of a game project.
- Designed UI for the mobile version of the project.
- Created social media posts and supporting visual content.

SELECTED PRODUCT EXPERIENCE

PSD Cloud — Precision & Steeling Design Product Design

ERP & HRM Software

- Designed enterprise workflows across RFI Tracking, Document Control, Employee Management, Admin Portal, Permission & Access Management, Job Data, Client Management, and Client Portal.

TeamDay

HRM & Project Management Platform Research · End-to-End Design

- Conducted product research and designed end-to-end experiences for daily task management, project backlog, stories, sprints, time management, and project tracking.
- Designed story/task management, sprint planning, backlog workflows, Microsoft Teams alerts, and related productivity flows.

Nest School ERP

School Management / ERP Platform Product Design

- Worked across Student, Teacher, Staff, Transportation, Attendance, Fees, Reports, and Exam/Assessment modules.
- Designed workflows for school administration and academic operations, including requirements aligned with UDISE / PSP compatibility.

Locally Accessible Cloud System (LACS)

Disaster Communication & Local ICT Platform UI Design

- Designed Feed, Messaging, and SOS/Emergency experiences for a portable local communication system intended for situations where internet or mobile connectivity is unavailable or disrupted.

SKILLS

Product	Product Thinking, End-to-End Product Design, Product Discovery, Product Strategy, Problem Solving, Design Thinking, Requirements Gathering
UX Research	User Research, Competitive Analysis, User Journey Mapping, Information Architecture, Usability Testing, User Flows, Wireframing, UX Writing
UI Design	Visual & Responsive Design, Design Systems, Components, Prototyping, Accessibility (WCAG), Interaction Design, Design QA, Developer Handoff
AI Workflow	AI-Assisted UI Generation, Prompting for Design, AI-Assisted Prototyping & Frontend Development
Collaboration	Stakeholder Communication, Cross-functional Collaboration, Design Reviews, Product Documentation, Agile/Sprint Workflows
Marketing	Social Media Design, Content Planning, Creative Production, Brand Consistency, Campaign Design, GTM Communication

TOOLS & TECHNOLOGIES

Design: Figma, FigJam, Adobe Photoshop, Adobe Illustrator, After Effects (Basic)
AI Design / Coding: Google Stitch, Claude Design, Claude Code, Antigravity IDE, Cursor
Development: HTML, CSS, JavaScript/TypeScript, React, Next.js, Angular, shadcn/ui
Workflow & Analytics: Git, GitHub, Microsoft Teams, n8n, Google Analytics (Basic)

EDUCATION

Bachelor of Computer Applications (BCA) — The ICFAI University, Jaipur 2023
