# Kriti Gupta

Product Designer · UI/UX Designer · Product Design & Frontend

kritisambhariya@gmail.com · 7976562422 · Jaipur, India · kritigupta.in · LinkedIn

## EXPERIENCE

**Wisflux Techlabs — Product Designer** Jan 2023–Present

*Progressed from UI/UX Designer to Product Designer*

- Expanded ownership across discovery, UX research, requirements, IA, interaction & visual design, prototyping, and delivery.
- Design end-to-end digital product experiences across enterprise, HRM, project management, education, and operational software.
- Translate client and stakeholder requirements into user flows, wireframes, prototypes, high-fidelity UI, design systems, documentation, and developer-ready handoffs.
- Collaborate with clients, product managers, developers, QA, and internal design teams across discovery, design reviews, implementation, testing, and iteration.
- Contribute to product strategy, UX decisions, requirement documentation, design planning, stakeholder reviews, and design-to-development workflows.
- Review implemented builds for UI quality and functional consistency and iterate designs based on product feedback and testing.
- Create marketing creatives, social media content, product communication assets, and go-to-market (GTM) design materials.

**Pie-Gamers, Jaipur — Graphic Designer & UI/UX Designer** Jun 2022–Aug 2022

- Designed and helped build the concept and user experience of a game project.
- Designed the mobile UI and created social media and supporting visual content.

## SELECTED PRODUCT EXPERIENCE

**Fizvizz** · fizvizz.com

**Digital Business Card & Networking App (Android & iOS)** Mobile App Design

- Designed native mobile experiences for digital business cards: card creation, separate cards for different circles, and sharing by QR code, link, SMS and email without exposing personal contact details.
- Designed flows for groups and events, contact introductions, privacy and access controls, and AI-powered scanning of paper business cards into digital contacts.

### PSD Cloud — Precision & Steeling Design

**ERP & HRM Software** Product Design

- Designed enterprise workflows across RFI Tracking, Document Control, Employee Management, Admin Portal, Permission & Access Management, Job Data, Client Management, and Client Portal.

### TeamDay

**HRM & Project Management Platform** Research · End-to-End Design

- Researched and designed end-to-end flows for daily tasks, backlog, stories, sprints, time tracking, and Microsoft Teams alerts.

### Nest School ERP

**School Management / ERP Platform** Product Design

- Worked across Student, Teacher, Staff, Transportation, Attendance, Fees, Reports, and Exam/Assessment modules.
- Designed school administration and academic workflows, including UDISE / PSP-aligned requirements.

### Locally Accessible Cloud System (LACS)

**Disaster Communication & Local ICT Platform** UI Design

- Designed Feed, Messaging, and SOS/Emergency experiences for a portable local communication system intended for situations where internet or mobile connectivity is unavailable or disrupted.

## SKILLS

| | |
|---|---|
| **Product** | Product Thinking, End-to-End Product Design, Product Discovery, Product Strategy, Problem Solving, Design Thinking, Requirements Gathering |
| **UX Research** | User Research, Competitive Analysis, User Journey Mapping, Information Architecture, Usability Testing, User Flows, Wireframing, UX Writing |
| **UI Design** | Visual & Responsive Design, Design Systems, Components, Prototyping, Accessibility (WCAG), Interaction Design, Design QA, Developer Handoff |
| **AI Workflow** | AI-Assisted UI Generation, Prompting for Design, AI-Assisted Prototyping & Frontend Development |
| **Collaboration** | Stakeholder Communication, Cross-functional Collaboration, Design Reviews, Product Documentation, Agile/Sprint Workflows |
| **Marketing** | Social Media Design, Content Planning, Creative Production, Brand Consistency, Campaign Design, GTM Communication |
